BACHELOR'S PROGRAMMES

UNDERGRADUATE PROGRAMMES

All our bachelor's programmes are 3-year full-time courses of modular studies leading to a Bachelor of Science degree conferred by The University of Buckingham. They start with a common first year that will allow you to make a decision with regard to your final specialisation choice by the end of the first year. In the fifth semester you may choose between studying abroad or doing an internship.

IBS offers a 50% Starter Scholarship for newcomers. (See details on our website!)

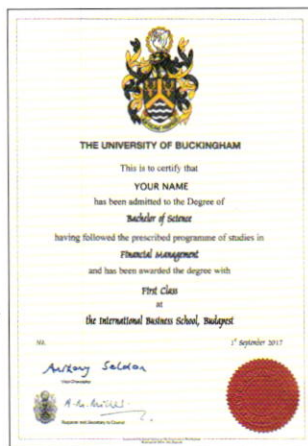

ERASMUS EXCHANGE AND WORK PLACEMENT

Coming to IBS will open up opportunities for you to study abroad, without adding to the length of your studies. ERASMUS is the mobility programme of the EU for university students, teachers and staff. One semester abroad is available to all IBS students during their studies. We are happy to welcome over 100 students a year who come from our 68 ERASMUS partner universities. Optional work placement in the fifth semester of your studies is an excellent opportunity for testing your strengths, showing your abilities and possibly finding your workplace after graduation.

MASTER'S PROGRAMMES

MASTER'S DEGREE IN ONE YEAR

We offer five postgraduate programmes in English, all leading to the Master of Science degree conferred by our British partner, The University of Buckingham.

- INTERNATIONAL MANAGEMENT
- HUMAN RESOURCE MANAGEMENT
- FINANCIAL MANAGEMENT
- MARKETING MANAGEMENT
- IT FOR BUSINESS* (NEW)

All our master's programmes are full-time with 3 terms (2 taught terms and 1 summer term for dissertation writing) and the studies can be completed in one year. In order to accommodate work commitments, we provide a work-friendly schedule with courses delivered in blocks.

CRITICAL AND ANALYTICAL SKILLS

Completing a master's programme at IBS requires considerable commitment on your part. We aim to match your commitment by providing a challenging programme that encourages you to question the way management and business processes operate in an organisation. The open and critical thinking we help you to develop is highly valued by employers.

ENGAGING SEMINARS AND GROUP WORK

Students on our master's programmes come from a wide variety of learning environments. They are expected to be independent learners. Our faculty support and guide all programme participants throughout this process as we are convinced that independent study develops strong research skills and the ability to make sense of new material quickly. An additional core value of our master's programmes is the development of individual and team building skills in a cross cultural context.

STUDENT PROGRAMMES AND ACTIVITIES

PEER MENTORING PROGRAMME

The IBS Peer Mentoring Programme is a peer support programme where a second year student acts as a mentor to a new first year bachelor student. Every single bachelor student will have a peer mentor when they start at IBS and will meet them during the induction week. The peer mentor is there to help new students settle into life at IBS, life at a new university and in some cases life in a new city or country. Mentors receive regular trainings and are guided to help their mentees with any questions and concerns they may feel more comfortable asking a fellow student than anyone else. In addition, mentors also share tips and best practices on how to be a successful student. This programme is especially unique because it is co-designed and co-facilitated by previous and current peer mentors in partnership with the Student Wellbeing Team of IBS.

STUDENT-LED CLUBS

IBS has a range of student-led clubs which form an active part of IBS student life. The clubs range from 'professional interest' activities such as Finance and Politics and International Relations to 'hobby' activities such as chess and music. All the clubs are free to join and are a great way for students to meet new people and make new friends. All students can not only join an existing club (IBS has regular Club Fairs) but also start a brand new club of their own, in order to bring a hidden talent or passion to light, develop new skills and also to add their own social imprint to the life at school.

IBS ATHLETIC CLUB (IBSAC)

IBS Athletic Club (established in 2018) is the umbrella club for all IBS sport activities. The focus is primarily on recreational sport, instead of performance sport, therefore providing an opportunity to as many students as possible to meet new people, make friends, have fun and get healthy in an enjoyable environment. Current activities include basketball, volleyball and cricket with the potential to expand into new areas. Joining IBSAC requires a small membership fee per semester and becoming a member not only guarantees playing one of these sports but also discounts to various gyms and other sports venues in the city where IBS has a strategic partnership.

#BUDAPESTCAMPUS
